FOUND — Saturday night, a slicker; owner can get same by paying for this notice and describing same to J. M. Caldwell.

## RECEIVED NEW EQUIPMENT.

Electrical Engineering Department at A. & M. Gets New Material.

With the view of making the instruction in the electrical engineering department of the A. & M. College more thorough much expensive and valuable equipment has been added to the laboratories of that department. In a shipment received Saturday equipment bearing directly on instruction in electric railways was included. This equipment consisted of a complete array of standard railway motors of the interpole type, complete with both hand and automatic controllers. This with the other equipment that has been recently received and set up in the laboratory gives the Texas A. & M. College the best equipped electrical engineering department in the South. This equipment will be used to amplify the theoretical instruction now given to electrical engineering students.

The department also has received a large number of alternating current generators and motors for test and experimental work, these machines being of the most modern type obtainable. The department maintains a complete set of standard instruments which are maintained primarily for calibrating the instruments used by the students, but which also can be used for calibrating the standards used by local electric companies.

The department of electrical engineering is one of the biggest and best equipped divisions of the college and is popular one with cadets. Prof. F. C. Bolton, head of the department, has had practical experience as well as such theoretical instruction. Graduates of this department always are in demand, there being a demand for more men last year than were graduated.

State, Federal and city officials, with representatives of steamship lines, have provided for wants of people on board the ships.  
Presence of refugee ships in harbor, along with ships of war, is attracting thousands of visitors. — Galveston News.

## HEAVY RAINS IN NORTH TEXAS

High Water Everywhere and the Flood Stage of December is Feared.

[By Associated Press]

Dallas, Tex., April 27. — Torrential rains are filling the rivers over North Texas. It is feared the high water will reach the proportions of last fall's flood. The Trinity river here has reached a thirty-foot stage. The rains extend from Dallas to Childress and Stamford.

The negro section in Waxahachie is five feet in water. Many negroes were rescued but none were dead. There was a washout on the Santa Fe near Cleburne. The trains had to be detoured. The water is in the stores in Cleburne.

## FRANKLIN BUSINESS LEAGUE.

Young Men Effect Organization and Elect Officers.

Franklin, Tex., April 27. — A Young Men's Business League has been organized for Franklin, to be known as the Franklin Business League. The following officers were elected: President, J. D. Grant; first vice president, James Davlin; second vice president, J. D. Jackson; secretary-treasurer, R. D. L. Killough; board of directors, Dr. J. C. Holman, W. C. Crane, H. Poetter, W. T. Maris, George E. Brown, Morris Gilliland, C. B. Carter, R. W. Cole, E. A. Decherd Jr., John C. Mitchell, D. J. Mauk and Dr. J. F. Van Pelt. A room in the new Carnegie Library has been tendered for the use of the club and meetings will be held there every Tuesday morning. The purpose of the league will be to aid in the development of Franklin and Robertson County.

Tyler Haswell went to Fort Worth last night on business.

## FEDERALS LEFT U. S. CONSUL LOCKED UP

Hanna Remained Behind Bars at Monterey Until Victorious Rebels Captured the City.

Washington, April 27. — United States Consul General Philip C. Hanna at Monterey reported to Secretary Bryan last night that he had been humiliated and placed in jail by Mexican Federal officials on April 22 and left behind the bars until released two days later by the Constitutionalists when they captured the city.

## FARMERS TO OPEN "AT HOME."

Baylor Baptists Are First to Try Out Texas Aggies.

The Texas Farmers open their "at home" games Wednesday, when they meet the Baylor Baptist baseball team from Waco. The season thus far has been an up and down one for the Texas Aggies, although they have given a good account of themselves in each game.

A. & M. has six more games with Texas college teams. April 29-30 she meets the Baylor Baptists and on May 1-2 she meets the team representing Southwestern University, Georgetown, at the annual Maifest at Brenham. May 6-7 Trinity comes here for two games, and the last contests of the season are with Oklahoma University at College Station May 13-14.

The team returned from its week's trip Sunday and will begin work at once for the coming games at home.

## LITTLE BRAZOS UP.

Was Bank Full and Did Slight Damage to Interurban Bridge.

A rain little short of a cloudburst in the vicinity of Mumford yesterday, caused the Little Brazos river to be bank full in that locality and run out in the very low places. The rise was only local, however, and did not reach to Hearne.

Mr. Hewitt, traffic manager of the Bryan & Central Texas Interurban, reports that the interurban bridge knocked it eight inches out of alignment and broke off a few piling. A force of hands worked all day clearing the drift, which extended a thousand feet up the river, and succeeded in shaping it so no further damage is expected. The water lacked about twelve feet coming up to the bridge proper. No damage was done the new county bridge being constructed near the interurban bridge.

There is no perceptible rise in the Big Brazos opposite Bryan and no fears are felt of an overflow. There was a twelve-foot rise at Waco at noon, and the river was reported to be on a standstill.

All kinds of wild rumors were current on the streets today, but when chased down there was nothing to them.

The rains of the past two days have been heavy over the county and in some places the land was badly washed with some damage to young crops.

Farming operations of all kinds will be on a standstill for some time.

The rainfall here since yesterday morning as reported by John D. Daly Jr., the weather man, is 2½ inches.

## MEXICAN BOY DROWNED.

Captain O. L. Tabor reported to The Eagle today that a Mexican boy from his farm on the Navasota river was drowned in Wixon lake yesterday. With two other Mexicans he was swimming in the lake and the three went out to the middle of the lake in a boat and plunged in. This boy, Petro Shino, 19 years old, shouted to the others he was drowning and one of his companions went to his rescue and in the struggle was himself almost drowned. Before they could reach him with the boat he had given up the struggle and gone down. The body was recovered in a short time and was brought in today and buried in the City cemetery.

## WRITE STORIES FOR MOVING PICTURES

New Spare-Time Profession for Men and Women—One Man Makes \$3500 in Six Months.

Owing to the large number of new motion picture theatres which are being opened throughout the country, there is offered to the men and women of today a new profession, namely, that of writing moving picture plays. Producers are paying from \$5 to \$150 for each scenario accepted upon which they can build a photo play.

\$3500 in Six Months. As it only requires a few hours' time to construct a complete play you can readily see the immense possibilities in this work. One man, who gave the idea a try-out, writes that he earned \$3500 in six months. It is possible for an intelligent person to meet with equal success.

One feature of the business which should appeal to every one, is that the work may be done at home in spare time. No literary ability is required, and women have as great an opportunity as men. Ideas for plots are constantly turning up, and may be put in scenario form and sold for a good price.

Particulars Sent FREE. Complete particulars of this most interesting and profitable profession may be had FREE OF CHARGE by sending a post card to

PHOTO PLAY ASSOCIATION  
Box 153, Wilkes-Barre, Pa.
